Gainful Employment

- *Beable Prep* empowers students to recognize their unique strengths to solve problems quickly and correctly—and to develop the ability to rapidly switch among their strengths.

- It provides a personalized and adaptive path to success for *all* students based on each student's ability and timeline.

- By doing so, it helps learners develop Cognitive Flexibility—the higher-order thinking skill they need to succeed on the ACT and SAT...and throughout their lives.

Delivered online in school and at home

For teacher-led and independent learning

Covers Math, English, Reading, and Science as appropriate for each test

Instruction and feedback in English and Spanish

Awareness
Cognitive Flexibility
Confidence
Adaptability

Cognitive Flexibility:

Beable Prep teaches students to look at a problem and quickly determine the optimal strategy that applies their strengths to solve it. Students learn to switch among strategies, so they are always solving problems from a position of strength. This is Cognitive Flexibility—the awareness of one's own strengths and the ability to adapt as needed and excel in the process.

# Cultivating Students' Ability to Recognize Strengths and Improve Skills

Developed in partnership with examPAL, the world's most-awarded test-prep provider, *Beable Prep* is the only test-prep solution that empowers learners to recognize their unique problem-solving strengths. Through its proprietary methodology and technology, *Beable Prep* ensures that students:

- Understand their existing strengths and improve areas of lesser strength.

- Develop flexibility to choose among strengths to solve problems in the most effective way.

The Proprietary PAL Methodology: A Revolutionary Test-Prep Approach

Instead of learning dozens of different test-taking strategies, *Beable Prep* focuses students on the three main strategies that work for all question types: Precise, Alternative, and Logical. Through PAL, students identify the best strategies for them...for any given question and subject area. In this way, *Beable Prep* simplifies and speeds up the test-taking process—the keys to better scores.
P
Precise

Students directly solve the problem.

·······································

Often the only strategy taught in school.

·······································

Accurate but time-consuming.

A

Alternative

Students arrive at the right answer without necessarily knowing the underlying reasoning.

·······································

Use trial and error, approximation, elimination of incorrect answers, etc.

L

Logical

Students apply understanding of how a problem works to arrive at the right answer without solving it.

·······································

Apply rules and patterns to make logical deductions.

Personalization Powered by Cutting-Edge Technology

Through its advanced technology, *Beable Prep* provides the most personalized test-prep program in K–12.
Machine Learning

(a form of Artificial Intelligence)

*Beable Prep* actively learns each student's thought process and problem-solving strengths and weaknesses.

Wisdom of the Crowd

The system aggregates everything it knows about all students, identifying and presenting the overall most-effective strategy for each question type.

Four-Part Routine for Continual Improvement

Beable Prep is a comprehensive, adaptive test-prep program that goes far beyond rote practice. It develops test-taking strategies. It provides personalized practice and feedback. It develops Cognitive Flexibility. Most of all, it teaches the fastest route for each student to the right answers.
Intro

Interactive videos refresh understanding of foundational skills.
Reinforcement

Reinforcement activities strengthen skills.

Lessons

Interactive videos teach the different test-taking strategies and how to apply them.

Practice

Three-part practice uses ACT- and SAT-formatted items to mimic real test content.

Test-Prep That's 'Lifelong Success' Prep

Beable Prep goes far beyond other test-prep solutions. By addressing the whole child—from helping them develop self-awareness of their interests and strengths to personalizing career exploration to accelerating essential literacy skills—*Beable Prep* puts kids on the path to gainful employment and lifelong success.

Beable Prep includes:

- **Comprehensive Learner Record:** Learner Records that are updated on an ongoing basis, including personal and career interests and strengths, academic gaps and goals, and college/workplace aspirations.

- **Career development:** Personalized career exploration based on interests, values, and goals, plus differentiated readings on the six themes from the RIASEC career interest inventory, World of Work® careers, and essential skills.

- **Literacy recovery:** Age-appropriate, high-interest articles differentiated to students' individual reading levels to drive literacy growth.

ACT/SAT equity, access and success start with Beable *Prep.*
